### AMUSEMENTS.

Park-"A Hot Old Time." Johnny and Emma Ray, those ruthless destroyers of dignity and decorum, with their company of unique entertainers, presenting the rip-roaring farce-comedy, "A Hot Old Time," are back at the Park Theater for another half week. There is plenty of good singing, dancing and specialty work, but, for the most part this concoction is simply to laugh. A few pleasing changes have been made in the performance since these inimitable funmakers last visited Indianapolis, only a short while ago. The principal one is the addition of considerable ocal color to the lightning-sketch work of Dolph Levino by substituting easily recognizable likenesses of Mayor Taggart and James Whitcomb Riley for the pictures of Spanish war heroes formerly shown. Each of these Indianapolis favorites received his full meed of applause. There is more dash in the work of the various members of the company, the effect of the whole being like to a new production. The excellent team work of Harry Hayes, high kicker, and Martin Healy, the muscular and funny dwarf, drew forth as hearty applause and as many encores as ever. The picturesqu cake walk, in which all the people in th cast, including the Rays, in flaming red costumes, participated, is decidedly a feature. The Rays played to all the people who could get into the theater at both performances yesterday. "A Hot Old Time" will

keep things lively at the Park the rest of the week. Monday "At Gay Coney Island"

Rice and Barton's "Galety Company, which opened at the Empire yesterday afternoon, is giving even a better perform-"Champagne and Oysters" and "McDoodle and Poodle," with big George Barton as the erring husband. It is well supplied with specialties, in addition to the farce itself, which shows a good amount of dramatic unity. Hattie Mills, in an artistic rendition of negro melodies; Frankle Haines and the company in an uproarious execution of "No Coon Can Came too Black for Me," vocal selections by Josie Flynn and Olla Hood and a pretty dance by the Princeton sisters, were the principal features. Barton and Eckhoff's musical turn, which opened the olio, still contains Eckhoff's tiresome inde cency. The rest of the olio was furnished by Swan and Bambard, one of the cleverest comedy acrobatic teams in the profession; Frankie Haines in a neat sketch, and cake walk, with Idylla Viner and Elsieta assisting: Miles and Raymond in their clever act introducing the big-footed darky with the voice of a little girl, and Tuohey and Mack. The last named, in addition to being good Irish comedians, introduced a duet on the Irish pipes (not dudeens) that took. The closing burlesque had a good lot of comedy situations, and a dance by Idylla Viner that seemed, from the different styles of movement, to begin on the Bowery and run by easy gradations through gay Parce and old Madrid and finish in Constantinople, Elsieta's toe dancing was a dainty performance. The chief comedy roles were well handled by Barton and George W. Rice. The show will remain the rest of the week, with daily matinees. The American Burlesquers, with Mason Mitchell, will follow Monday.

DUNKIRK GLASS MAN ARRESTED FOR DISCHARGING UNION MEN.

Trial Now on at Marion of Arnold's Damage Suit for Being Thrown Off the Cromer Train Last May.

Special to the Indianapolis Journal. PORTLAND, Ind., March 9.-George Beatty, one of the proprietors of the Beatty-Brady glass factory at Dunkirk, was arrested here to-day on six different complaints, five of them charging that he discharged employes in his factory for belonging to labor organizations, and the sixth that he coerced and threatened to discharge an employe who was a member of a labor union. Mr. Beatty appeared in the Jay Circuit Court before Judge Smith and gave bond in each case for his appearance for trial. This opens up a big fight between organized and nonunion labor, and will be watched with interest all over the country, especially by members of the numerous glass-working institutions. The shortage grew as the investigation continued until it reached the amount set out in the complaint. The bondsmen desired to settle without the payment of any more money, save the cost of the investigation, and presented a petition signed by 120 heavy taxpayers urging such a settlement. The Council offered to take \$3,600 in full, and failing to get this, offered to submit to arbitration by three disinterested taxpayers. These overtures the bondsmen rejected. The bondsmen have retained three firms of

He is a wonderfully sion of Mr. Kipling's servant, Mathew Howard, whose faithfulness and devotion have been unmistakably shown during the last week in his frequent trips to town for news from the sick man, and whose doubts and fears have changed to an air of cheerfulness. Whether Mr. Kipling's illness will change his plans as to his contemplated trip to Mexico is not known, but the hope is expressed that he will yet act on the suggestion of the Brattleboro people in their letter of two weeks ago in which the hope was expressed that he would find it conveient to | parently agreeable to him, and he is known make his future home in Brattleboro. Mrs. Kipling had made arrangements to spend some time here when her husband was taken ill, though they aid not contemplate opening "Naulahka" until later in the season. The illness of the children will doubtless change the plans somewhat, but it is hoped that their recovery will be rapid, thus permitting them to enjoy the fresh and in-

vigorating air of their Vermont home.

When Mr. Kipling came to this country

he was made the subject of much criticism on account of his desire to avoid rather than seek publicity, says a writer in the Worcester Gazette. The general public apparently could not comprehend that a man could be 'famous' and yet not receive interviewers with open arms, and a great deal was said of alleged discourtesies received by newspaper men at his hands. The truth of the matter is that Mr. Kipling believed in minding his own business, and people who attempted to interfere with it were given to understand that they were exceeding their rights. It soon became evident that Mr kipling, in taking measures to insure the privacy so necessary for his work, was only acting in self-defense. A man of the world he was singularly approachable when he was sure that his visitor was not selfishly trying to get something out of him. His neighbors, who had known the Balestiers for many years, did not know how to take Kipling at first, and were apparently fearful that the little man with the spectacles was going to write them up. But the "dread of greatness" soon wore off, and the Vermonters appreciated Kipling's qualities as a man as well as an author. He made some warm friendships with people in Brattleboro. His relations with Dr. James Conland, one of the leading physicians of the town, are most friendly. Dr. Conland, who has been at Kipling's bedside in New York, accompanied the author when he took the cruise of observation which resulted in the writing of "Captains Courageous." To Dr. Conland's young son Mr. Kipling took a special liking, and to him told many of his stories for children before they were put in writing. He relied greatly on the lad's opinions, and his "good' set the author to work. Mr. Kipung, as may be inferred from his success as a children's story writer, is extremely fond of children, and enjoys talking with them and getting at their secrets It has been said that the younger part of the population of Brattleboro knew Kipling better than the elder when the author lived

There were other bookcases along the walls and occasionally a book was seen among his pipes on the mantel over the fireplace, but there was a noticeable absence of the "confusion" usually associated with literary greatness. Mrs. Kipling is an excellent business woman and a good housekeeper, and it has been her aim to give Mr. Kipling absolute freedom from household annoyances so that he could work to the best advantage. She has also looked after many matters of detall in regard to the publishing of his books. It was only natural that Mrs. Kipling should desire to have at least a summer home in Brattleboro. Mr. Kipling made his first visit to this section soon after he first came to America. The ground was then covered with snow, and it is said that he had never before experienced that keen wintry air that Vermont people are sure they have a surplus of. Of course, he besome of the Brattletboro people. Coming from him there was a little sting in what he said, but it was lost sight of long ago. Rev. Dr. George Leon Walker replied to the article in a temperate, good-natured way, and there the matter ended. It is only natural that Mr. Kipling should like the southern Vermont section. It was at Naulahka that his two daughters, Josephine and Elsie, were born. The third child, John, named in honor of the grandfather, John Lockwood Kipling, was born after they went abroad. Mr. Kipling built this Brattleboro house in 1893, and lived there for several years. His life in the town was apto have enjoyed very much the scenery of the neighborhood. Always reserved, he never entered much into the social life of the village, yet the mutual feeling of esteem which grew up between him and the towns-people was solid and lasting.
